From: Power Boss Technical Support

Date: 04/01/2012

Subject: TSB for MIN-11514 – New Urethane Yellow Wheels For All PHX20TD, PHX20C and PHX26ECO models.

Reason for Change - Product Improvement

Improvement - The new urethane tire will provide better traction, chemical resistance and longer life.

Models/Serial Numbers Affected All PHX20TDQP, PHX20CQP and PHX26ECOQP models.

All new machines will be equipped with the new style wheels from the factory effective on 04/27/2012, starting with serial numbers:

PHX26ECOQP Serial 12050049

PHX20TDQP Serial 12090115

PHX20CQP Serial 12060433.

Reference Kit Instructions – The foam filled gray tire assembly part number 200172-2 will no longer be used on the models listed above and will no longer be available to purchase.

Use two of the **K-172518 Wheel Kits**, when replacing original gray wheels. Each kit will include one new wheel part number 172518, one key part number 172452 and the instructions.

Note: The brush head will need to be adjusted to make the change to the wheels.
It's recommended to use two of the same type of wheel on each machine.

Informational Only For Purchase Warranty Product Improvement
